BRUSHES AND BROOMS CEPILLOS & BARREDORAS BROSSES & BALAIS

TotalSource® offers a complete line of replacement brooms, brushes and pad drivers to fit Advance, American-Lincoln, Factory Cat, Power Boss, Tennant, and many others. Offering a variety of filament and pattern options, TotalSource® can meet requirements for a wide range of applications. All TotalSource® replacement brooms, brushes and pad drivers are manufactured to meet or exceed the OEM specifications.

Totalsource® ofrece una línea completa de repuestos de cepillos, barredoras y almohadillas de pulido que se adaptan a American-Lincoln, Factory Cat, Power Boss, Tennant, y muchos más. Ofreciendo una variedad de filamentos y patrones, Totalsource® puede satisfacer una gran serie de aplicaciones. Todos los repuestos de cepillos, barredoras, y almohadillas de pulido de Totalsource® son manufacturadas para satisfacer y exceder las especificaciones OEM.

TotalSource® offre une gamme complète de remplacement des balais, des brosses et des conducteurs de tampons pour s'adapter à Advance, American-Lincoln, Factory Cat, Power Boss, Tennant, et bien d'autres. Offrant une variété de filaments et les options de motif, TotalSource® peut répondre aux exigences d'un large éventail d'applications. Tous les balais de rechange TotalSource®, les pinceaux et les conducteurs de tampons sont fait à respecter ou dépasser les spécifications OEM.

ORDERING PARA ORDENAR COMMANDER

The easiest way to order brooms, brushes, and pad drivers is by the OEM part number. If you know the OEM part number log on to www.irmn.com or contact your sales representative at 800-255-4109. If you do not know the OEM part number, you can use this guide to identify a TotalSource® part number for your specific application using the make and model information.

La manera más fácil de ordenar cepillos, barredoras, y almohadillas de pulido es por medio del número de parte OEM. Si sabes el numero de parte OEM, regístrate en www.irmn.com o contacta a tu representante de ventas al 800-255-4109. Si no sabes el número de parte OEM, puedes usar esta guía para identificar el número de parte Totalsource® para tu aplicación especifica usando la información de marca y modelo.

La meilleure façon de commander des balais, des brosses et des pilotes est par le numéro de pièce de fabricant d'équipements originaux. Si vous connaissez le numéro de pièce de fabricant d'équipements originaux ouvrez une session sur www.irmn.com ou communiquez avec votre représentant des ventes au 800-255-4109 aux États Unis ou 1-800-509-7668 au Canada. Si vous ne connaissez pas le numéro de pièce de fabricant d'équipements originaux, vous pouvez utiliser ce livre pour identifier un numéro de pièce TotalSource pour votre application spécifique en utilisant la marque et le modèle.

BRUSH TYPE TIPO DE CEPILLO TYPE DE BROSSE

	Description
Side Broom	The side brooms purpose is to throw debris out in front of the sweeper so that the main broom can pick it up.
Main Broom	The main broom is built around a heavy duty core, with staple-set tufts aligned in spiral rows. This design places bristles on the floor at all times to increase vacuum efficiency and improve pickup characteristics.
Side Scrub "Rotary Brush"	A rotary brush or "side scrubber" is designed to spin and agitate debris loose from the ground with its dens and stiff bristles
Cylindrical Scrub "Main Scrub"	Cylindrical Scrub or "Main Scrub" use a full-fill design that keeps bristles on the floor at all times and directs solution to the center of the scrubbing path as the bristles agitate the debris loose from the ground. The filament length on this brush designates it as a "scrubber" since the short bristle isn't able to "flick" or "sweep" the debris off the ground.
Pad Driver	Stiff, 1/2" long Polypropylene bristles unevenly trimmed and widely spaced to firmly grip scrubbing pads.

MATERIAL MATERIAL MATÉRIEL

	Material	Description
Nylon	Nylon	A highly productive filament and has an excellent brush life in dry sweeping conditions. Nylon performs well on rough surfaces and in high-temperature environments because of its durability and high melting point. The smaller the grit size the more aggressive the scrubbing.
	Soft Nylon	.18 - .20 Nylon bristle gauge
	Medium Nylon	.22 Nylon bristle gauge
	Stiff Nylon	.28 Nylon bristle
	Nylon Patrol	The "V" shaped pattern of the bristles is used for sweeping large indoor and outdoor areas at higher speeds and gives superior hopper loading of sand and larger items.
	Nylon Wire	A combination of Nylon and Wire to provide more stiffness.
Poly	Poly	The most popular filament in scrubbing applications, Poly is efficient for use with most soils and surfaces. Although Poly is more economical than Nylon, it is not recommended for sweeping high temperature debris.
	Medium Poly	.22 bristle gauge
	Stiff Poly	.28 bristle gauge
	Poly Wire	A combination of Poly and Wire to provide more stiffness.
Proex	Proex	Is highly efficient as an all-purpose filament for indoor and outdoor sweeping applications, including damp or humid environments. Not recommended for high-temperature sweeping applications. Proex is polypropylene and derives its name from the X-shape of the bristle.
	Extra Stiff Proex	This Proex bristle gauge is greater than .28
	Proex/Wire	A mixture of Proex and Crimped Wire. This is the most versatile and widely used filament.
	Stiff Proex/ Wire	A .28 gauge bristle mixture of Proex and Crimped Wire
Wire	Wire	Crinkle wire used on side brooms and in main brooms with a combination of union and proex
	Butcher Wire	Scarifying brush that uses staple set butcher wire to cut through dirt and buildup on concrete floors and scratch the surface.
	Flat Wire	Flat Wire is made from flattened spring steel wire and is an aggressive material used only on side brushes and primarily in outdoor applications. This is an excellent material for digging heavy compacted debris away from the edges of buildings and curbs.
	Crimped Wire	Used for applications needing extra cutting action for heavy-duty sweeping of compacted dirt or debris. Normally mixed with Proex or Union filaments. Recommended for low dust sweeping on unsealed surfaces when used alone.
	Steel Wire	(.014" dia.) is the most aggressive of the series, for use on unfinished concrete surfaces.
Union Fiber	Union Fiber	Comprised of a mixture of Tampico and Palmyra fibers, this material is highly efficient for dust control and sweeping fine debris. As a natural fiber, Union has relatively shorter wear life versus other synthetic materials.
	Union Mix	A combination of Palmyra and White Tampico used in hard surface polishing applications.
	Union/Wire	A combination of Union Fiber and Wire to provide more stiffness.
Grit	Grit	Nylon filament impregnated with silicon carbide particles. Grit filaments are offered in .070"/46, .050"/80, .035"/180, .022"/120, and .018"/500. The first number is the filament diameter. The larger the diameter the stiffer the bristle. The second number is the particle size. The smaller the grit number the more aggressive the scrubbing.
Also Available	Bassine	Bassine is used for general scrubbing purposes. Water absorption properties make this an excellent, low cost choice for hard surface scrubbing.
	White Tampico	100% White Tampico is naturally acid resistant. Ideal for the marble polishing industry.
	Lock Type	Mounting type for the brushes which lock into place
	Snap Type	Mounting type for the brushes which snap into place

ROW PATTERN PATRON DE HILERA MOTIF DE RANGÉE

	Row Pattern	Description
Single Row	2 Single row	The single row pattern is ideal for sweeping applications in dusty and/or sandy conditions. It is also referred to as the full-fill or high-density pattern. This pattern is designed to pick up fine debris, but not bulky.
	3 Single row	
	4 Single row	
	6 Single row	
	8 Single row	
	12 Single row	
	18 Single row	
	20 Single row	
	24 Single row	
Double Row	5 Double row	Because of its versatility, the double row pattern is the most popular pattern for sweeping applications. This design allows the space between each row to trap bulky items while the bristles are working to pick up the finer debris such as dust and sand.
	6 Double row	
	8 Double row	
	9 Double row	
	12 Double row	
	16 Double row	
Patrol Brush	5 Patrol brush double row	The patrol brush has a V-pattern and is designed primarily for high-speed sweeping in large areas. Designed with fewer rows with more tufts per row, there is more space between rows. This enables the brush to effectively pick up medium to large debris such as cans, paper and leaves at faster speeds.
	5 Patrol brush triple row	
	4 Patrol brush quad row	
	4 Quad row	A patrol brush that is designed with fewer rows and allows for more space between the rows. This enables the brush to more effectively pick-up litter at faster speeds.
	5 Triple row	

GRIT STYLE ESTILO DE GROSOR MOTIF DE GRÈS

Grit Style	Description
.018/500	.018″ dia. Nylon filament impregnated with 500 grit
.022/120	.022" dia. Nylon filament impregnated with 120 grit
.035/180	.035″ dia. Nylon filament impregnated with 180 grit
.050/80	.050″ dia. Nylon filament impregnated with 80 grit
.066/36	.066″ dia. Nylon filament impregnated with 36 grit
.070/46	.070″ dia. Nylon filament impregnated with 46 grit

BRUSH ADJUSTMENT AJUSTAMIENTO DE CEPILLO AJUSTEMENT DE BROSSE

When replacing the cylindrical brushes on your sweeper or scrubber, the suggestions below will give you longer life and maximum performance:

- **Remove the old brushes and install the new brushes following the directions on the equipment manual.**
- **Start the machine and lower the brush until you can hear or feel it sweep the floor. Don't lower the brush any further at this time. If you are installing the brushes on a scrubber, do not turn on the water.**
- **Let the brush sweep the floor while you count to 20. Now raise the brush and move the machine away. You should see a clean strip on the floor where the brush made contact. This strip should be 1½" to 2" wide across its full length. If one end is wider than the other, the brush mounting needs adjustment. (Refer to your equipment manual.) Check the brush chamber to assure that the brush arms are free to move.**

Cuando reemplaces los cepillos cilíndricos en tus cepilladores y barredoras, las siguientes sugerencias te darán larga duración y funcionamiento máximo:

- Quita los cepillos viejos e instala los nuevos cepillos siguiendo las direcciones de acuerdo al manual de instalación.
- Prende la máquina y baja el cepillos hasta que puedas escuchar o sentir el cepillo barrer el piso. En ese instante no bajes el cepillo más abajo. Si estas instalando el cepillo en un depurador, no abras el agua.
- Deja el cepillo barrer el piso mientras cuentas 20 segundos. Ahora levanta el cepillo y mueve la máquina a un lado. Deberás ver una marca limpia en el piso donde el cepillo hizo contacto. La marca deberá ser de 1½" a 2" de ancho a lo largo. Si un lado es más largo que el otro, el cepillo necesita ajustamiento (diríjase a su manual de instalación). Revisa el despacho del cepillo para asegurarse que los brazos del cepillos están libres para moverse.

Lors du remplacement des brosses cylindriques sur votre balai ou d'épuration, les suggestions ci-dessous vous donnera plus de vie et des performances maximales:

- Retirez les brosses usagées et installez les nouveaux balais en suivant les instructions sur le manuel de l'équipement.
- Démarrez la machine et abaisser la brosse jusqu'à ce que vous pouvez entendre ou sentir balayer le plancher. Ne baissez pas la brosse plus loin en ce moment. Si vous installez les pinceaux sur un laveur, ne mettez pas l'eau.
- Laisser la brosse à balayer le sol pendant que vous compter jusqu'à 20. Maintenant, augmenter le pinceau et éloigner la machine. Vous devriez voir une bande de nettoyage sur le sol où la brosse est entré en contact. Cette bande doit être de 1½ à 2 po de largeur sur toute sa longueur. Si l'une des extrémités est plus large que l'autre, le pinceau de montage doit être ajusté. (Reportez-vous à votre manuel de l'équipement.) Vérifier la chambre de brosse pour assurer que le bras de balais sont libres de se déplacer.

Mis-Adjusted Mal ajustado Mal ajusté

Properly Adjusted Ajustado correctamente Correctement ajustés

This adjustment is important! Operating with mis-adjusted brush mounting will reduce the brush life, cause excessive vibration, and possibly damage the equipment.

¡El ajustamiento es importante! Operando con un cepillo mal ajustado reducirá la vida del cepillo, causará vibraciones excesivas, y posiblemente daños al equipo.

Cet ajustement est important! Fonctionnant avec le montage de brosse mal ajusté permettra de réduire la durée de l'outil, peut causer des vibrations excessives, et éventuellement endommager l'équipement.

TotalSource® offers a wide selection of quality replacement parts for all major brands of industrial floor sweepers and scrubbers including:

Brushes
Brooms
Squeegees
Flaps
Skirts
Electric Motors
Hydraulic Motors
Vacuum Motors
Vacuum Hoses
Suction Hoses
Drain Hoses
Discharge Hoses
Drain Plugs
Belts
Latches
Hinges
Knobs
Gaskets
Panel Filters
Air Filters
Oil Filters
Fuel Filters
Casters
LP Gas

TotalSource® ofrece una gran variedad de repuestos para todas las marcas más reconocidas de barredoras y lavadoras industriales de pisos incluyendo:

Engine Parts
Lights
Seats
Switches
Bearings
Seals
Drive Axel
Steering
Body
Frame

TotalSource® offre une sélection large de pièces de rechange de qualité pour toutes les marques populaires de balais industriels et des machines de nettoyage, y compris:

FLOOR MACHINE PADS - ROUND ALMOHADILLAS PARA MÁQUINAS DE PISOS – REDONDAS TAMPONS MACHINE À PLANCHER – CIRCULAIRES

Natural (GORILLA®)
Natural pad is made with a blend of natural fiber and polyester and to give a "wet look" shine andwill not glaze over.

Almohadilla Natural
Está hecha con una mezcla de fibras naturales y poliéster y dará un brillo "como mojado" y no removerá ni acumulará la cera.

Naturel
Le tampon naturel est compose d'un mélange de fibres naturelleset de polyestère afin d'un donné un lustre de type « mouillé ». Le tampon ne figera pas.

Red
Red is a light abrasive pad for spray buffing to a satin gloss. The fibers are more open to help keep pad from glazing over.

Almohadilla Roja
Es una almohadilla con un abrasivo ligero para el abrillantado con rociador y dará un brillo satinado. Las fibras son más abiertas para ayudar a prevenir que la almohadilla remueva y acumule la cera.

Rouge
Le tampon rouge est légèrement abrasif et spécialement conçu pour le polissage au jet jusqu'à une finition satinée. Les fibres ne sont pas trop serrées afin d'aider à éviter que le tampon fige.

Tan
Tan is mildly abrasive pad for dry buffing using slow speed floor machines. It will buff away light soil and level scratches for a soft luster.

Almohadilla Café claro
Es una almohadilla de pulido en seco ligeramente abrasiva utilizada en máquinas de piso de baja velocidad. Removerá la suciedad leve y pulirá los rasguños a nivel para un brillo suave.

Ocre (couleur sable)
Le tampon ocre (couleur sable) est légèrement abrasif et conçu pour les machines à polissage à sec à basse vitesse. Celui-ci polira les saletés légères et les petites grafignes afin de donner un lustre léger.

White

White is a non-abrasive pad used for dry polishing using slow speed floor machines. It will buff away light soil and level scratches for a high luster.

Almohadilla Blanca

Es una almohadilla que no es abrasiva y es usada para pulir en seco utilizando máquinas de piso de baja velocidad. Removerá la suciedad leve y pulirá los rasguños a nivel para dar un gran brillo.

Blanc

Le tampon blanc est non-abrasif. Il est conçu pour les machines à polissage sec à basse vitesse. Celui-ci polira les saletés légères et les petites grafignes afin de donner un luste élevé.

SYS80223	28 Inch, White, 5 Pack	Non-Abrasive/Dry Polishing

Green

Green is a medium abrasive pad for wet scrubbing. This pad will remove embedded soil and black marks found in heavy traffic areas without stripping your finish to the tile.

Almohadilla Verde

Es una almohadilla con un abrasivo mediano para fregado con solución de limpieza. Esta almohadilla remueve las marcas negras y la tierra incrustada en el piso que se encuentran en áreas de tráfico pesado sin eliminar el acabado del mismo.

Vert

Le tampon vert est moyennement abrasif et est conçu pour le brossage mouillé. Ce tampon enlèvera les saletés incrustées et les traces noires retrouvées dans des endroits à trafic élevé sans avoir recours au décapage de la finition de votre plancher.

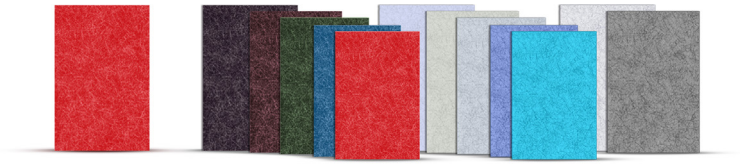
SYS0614X28	14X28 Inch, 5 Pack	Spray Buff/Polish/Burnish
SYS0614X32	14X32 Inch, 5 Pack	Spray Buff/Polish/Burnish



Red
Red is a light abrasive pad for spray buffing to a satin gloss. The fibers are more open to help keep pad from glazing over.

Almohadilla Roja
Es una almohadilla con un abrasivo ligero para el abrillantado con rociador y dará un brillo satinado. Las fibras son más abiertas para ayudar a prevenir que la almohadilla remueva y acumule la cera.

Rouge
Le tampon rouge est légèrement abrasif et spécialement conçu pour le polissage au jet jusqu'à une finition satinée. Les fibres ne sont pas trop serrées afin d'aider à éviter que le tampon fige.

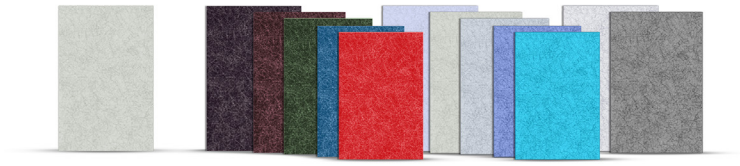
SYS7014X32	14X32 Inch, Red, 5 Pack	Scrub/Light Clean/Spray Buff



Tan
Tan is mildly abrasive pad for dry buffing using slow speed floor machines. It will buff away light soil and level scratches for a soft luster.

Almohadilla Café claro
Es una almohadilla de pulido en seco ligeramente abrasiva utilizada en máquinas de piso de baja velocidad. Removerá la suciedad leve y pulirá los rasguños a nivel para un brillo suave.

Ocre (couleur sable)
Le tampon ocre (couleur sable) est légèrement abrasif et conçu pour les machines à polissage à sec à basse vitesse. Celui-ci polira les saletés légères et les petites grafignes afin de donner un lustre léger.

Green
Green is a medium abrasive pad for wet scrubbing. This pad will remove embedded soil and black marks found in heavy traffic areas without stripping your finish to the tile.

Almohadilla Verde
Es una almohadilla con un abrasivo mediano para fregado con solución de limpieza. Esta almohadilla remueve las marcas negras y la tierra incrustada en el piso que se encuentran en áreas de tráfico pesado sin eliminar el acabado del mismo.

Vert
Le tampon vert est moyennement abrasif et est conçu pour le brossage mouillé. Ce tampon enlèvera les saletés incrustées et les traces noires retrouvées dans des endroits à trafic élevé sans avoir recours au décapage de la finition de votre plancher.
